SUMMARY

Web developer experienced in solving complex programming issues such as application deployment and writing clean, organized, and readable code that has been well documented.

STRENGTHS

- Proficient in JavaScript, HTML, CSS and Python basics, including libraries/frameworks such as React JS/Node, Django, and Flask, variables, data types, loops, conditionals, and functions for DOM manipulation and UI pattern implementation.
- Dependable, collaborative and flexible with a great passion and drive for coding and eager to move into a leadership role as soon as possible.
- Skilled in using APIs, Ajax, and asynchronous behavior, as well as applying jQuery and Bootstrap for efficient application development and responsive design.

EDUCATION

Full-Stack Web Development Program

CareerFoundry 📅 06/2023 - 12/2023 📍 Toronto, ON

Lawclerk Accelerated Program

Seneca-Newham Campus 📅 09/2022-09/2023 📍 Toronto, ON

University of Toronto 📅 09/2016 - 06/2021 📍 Toronto, ON

WORK HISTORY

Legal Assistant

Solutions Corporate Law Clerk Services

📅 10/2021 - 08/2022 📍 Toronto, ON

- Worked in a fast-paced office, taking on multiple corporate filings, extra-provincial registration, invoicing, large document organization, and other tasks.
- Communicated professionally with law firms, directors, and other clients to provide them with a personalized service, resulting in great feedback on my work.

Research Assistant

Genomadix 📅 09/2018 - 05/2019 📍 Ottawa, ON

- Utilized microbiological techniques to test bacterial samples and navigated Biosafety Level 2 lab.

Shipping Clerk

Hotspot Auto Parts 📅 05/2016 - 05/2018 📍 Toronto, ON

- Managed stock of an auto parts store carried heavy equipment and general tasks around the store, which resulted in meeting expectations and tasks well done.

MY OPEN-SOURCE WORK

FaveFlix

Application made with the MEAN stack framework to manage movies. Made with Angular and designed by Angular Material. Utilizing a RESTful API and a MongoDB database.

GitHub: <https://github.com/hakobya4/myFlix-Angular-client>

Meet App

Serverless, progressive web application (PWA) with React using a test-driven development (TDD) technique. The application uses the Google Calendar API to fetch upcoming events.

GitHub: <https://github.com/hakobya4/meet>

ZestFriends

An application that allows users to chat with each other. Made with React Native, Gifted Chat, and Firebase to store and sync data in real-time.

GitHub: <https://github.com/hakobya4/hello-world>
